

Bongard's Creameries Successful Sludge Reduction Program

South Pond

South Pond 85% Reduction Since 2013

North Pond

North Pond 76% Reduction Since 2013

- Two 10 Acre Primary Ponds
- 38,000,000 Gallons Each

Bongard's Creameries noticed they were getting sludge build-up in their two primary ponds. They got an estimate to dredge them for \$350,000. They went on a Team Lab Bioaugmentation Sludge Reduction Program and the results are outstanding.
